Instructor
(phone or laptop)
Access host
Student phones
1 Before class
start access point (script / button)
start AirGated service
preflight: address, ports, models
2 During class
join, enroll, check in
open dashboard from own phone (proposed)
present / absent, failures, needs attention
3 Exceptions
lost or replaced phone (in person)
reset that student's enrollment (audit-logged)
enroll again on new phone
4 After class
review audit log, stop service, access point off
